

the magnetic material of the primary frame magnetically engages in a lateral manner with the magnetic material of the auxiliary frame for securing said auxiliary frame to said primary frame;

the arm extends over the bridge, which can support the arm, to prevent the auxiliary frame from moving downward relative to the primary frame; and

the flange is located behind the bridge to further secure the auxiliary frame to the primary frame, and to reduce the likelihood of the auxiliary frame from being disengaged from the primary frame if the auxiliary frame is being pulled forward relative to the primary frame.

---

Remarks

The above Amendments and these Remarks are in reply to the Office action mailed January 14, 1999 for the Parent Application of this Continued Prosecution Application. All of the claims include the limitations of (1) A downward flange not being a magnet, but including a magnetic material, and (2) The magnetic material of the primary frame magnetically engages with the magnetic material of the auxiliary frame in a lateral manner. None of the references cited by the Examiner of the Parent Application teaches or suggests such limitations, singly or in any combination.

In view of the above Amendments and Remarks, reconsideration of Claims 1-13 and consideration of newly added Claims 14-15 is requested.

**Power of Attorney**

For the convenience of the Examiner, we are hereby submitting a copy of the Power of Attorney indicating Martin C. Fliesler and Peter P. Tong of Fliesler Dubb Meyer & Lovejoy, LLP, as attorneys of record in place of Raymond Kam-on Kwong. The original Power of Attorney was submitted to the Patent and Trademark Office on February 5,

1998. However, the most recent communication from the PTO was addressed to Mr. Kwong's office, rather than the offices of Fliesler Dubb Meyer and Lovejoy.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,

Date: April 12, 1999
